

公司简介 Company Profile

常州捷迈特表面工程技术有限公司是一家以金属表面防腐处理为主营业务的股份制高新技术企业。公司位于经济发达的长三角明珠城市--常州，坐落于国家级高新开发区--常州市新北区(富强路1号)公司地理位置优越、交通便利，公司成立于2004年。公司厂房面积5000多平方米，员工85人，高等教育学历及以上人员占总人数60%。

捷迈特专注于汽车制动系统的涂装设备，绿色环保材料、创新涂装工艺；提供完整和完善的制动系统零部件涂装工艺方案。

针对汽车刹车盘、制动鼓等零件，成功地为烟台胜地、山东隆基、浙江万向精工有限公司、山东惠宇汽车零部件、黄石东贝铸造有限公司；陕西华兴、河南万向制动系统等制动系统行业著名企业成地实施了多条大型自动化涂装生产线；得到了用户的肯定与认可。

在传统的喷漆、喷塑领域；采用先进智能自动化机器人，MESS技术，环保节能技术；清洁生产技术；为国内众多的大型企业打造了一批领先的，可靠的，具有现代化，智能化，环保化的典型项目案例。

为了满足涂装领域日益增长的对于环境污染治理的需求，公司针对涂装领域的废水、废气、固废、噪音治理；开发出系列化环保设备：废气气浮设备，PM膜技术，芬顿处理技术，VOC活性炭吸附，活性炭吸附+催化燃烧设备，沸石转轮净化设备，超标粉尘水旋净化除尘设备；漆渣、旧挂具燃气热洁炉；能够降低噪音15-30dB(A)的隔音、消音、吸音设备；获得了广泛地应用。

诚挚地欢迎各界朋友，表面处理专家，专业同仁，前来我司考察、指导!

Changzhou Geomet Surface Engineering Technology Co., Ltd. is a company of specializing in metal surface anti-corrosion treatment. Located in Changzhou, the famous city of the changjiang River Delta, our company located in the National Hi-Tech Industrial Development Zone at No.1 Fuqiang Road, Xinbei District, Changzhou City. Boasting a strategic location and excellent transportation accessibility, we were established in 2004. Our facility spans over 5,000 square meters and employs 85 staff members, with 60% of our workforce holding college degrees or higher qualifications.

Geomet specializes in painting equipment for automotive braking systems, eco-friendly materials, and innovative painting processes, providing comprehensive and sophisticated painting process solutions for braking systems and components.

We have successfully implemented multiple large-scale automated painting production lines for automotive brake discs and drums on behalf of renowned enterprises in the braking system industry, including :YanTai Winhere company, Shandong Longji corporation , Zhejiang Wanxiang Precision Industry Co., Ltd., ; Shandong Huiyu Automotive Parts, Huangshi Dongbei Casting Co., Ltd., Shaanxi Huaxing, and Henan Wanxiang Braking System, etc., which have been recognized and highly praised by our clients.

In the traditional fields of paint spraying and powder coating, we have employed advanced intelligent automated robots, MESS technology, environmentally-friendly and energy-saving technologies, and clean production technologies to develop a series of leading, reliable, and exemplary project cases for numerous large domestic enterprises. These projects feature modernization, intelligentization, and eco-friendly characteristics, and have gained full recognition and approval from our clients.

In order to meet the growing demand for environmental pollution control in the coating field, the company has developed a series of environmental protection equipment for wastewater, exhaust gas, solid waste, and noise control in the coating field: wastewater air flotation equipment, PM membrane technology, Fenton treatment technology, VOC activated carbon adsorption, activated carbon adsorption + catalytic combustion equipment, zeolite wheel purification equipment, excessive dust rotary purification and dust removal equipment; paint residue, old hanging gas hot cleaning furnace; sound insulation, silencing, and sound-absorbing equipment that can reduce noise by 15-30dB (A); it has been widely recognized by the market.

We sincerely welcome friends from all circles, surface treatment specialists, and industry professionals to visit our company for inspection and guidance!

自动化涂装系统集成方案的专业供应商
Professional Supplier of Automated Coating System Integration Solutions

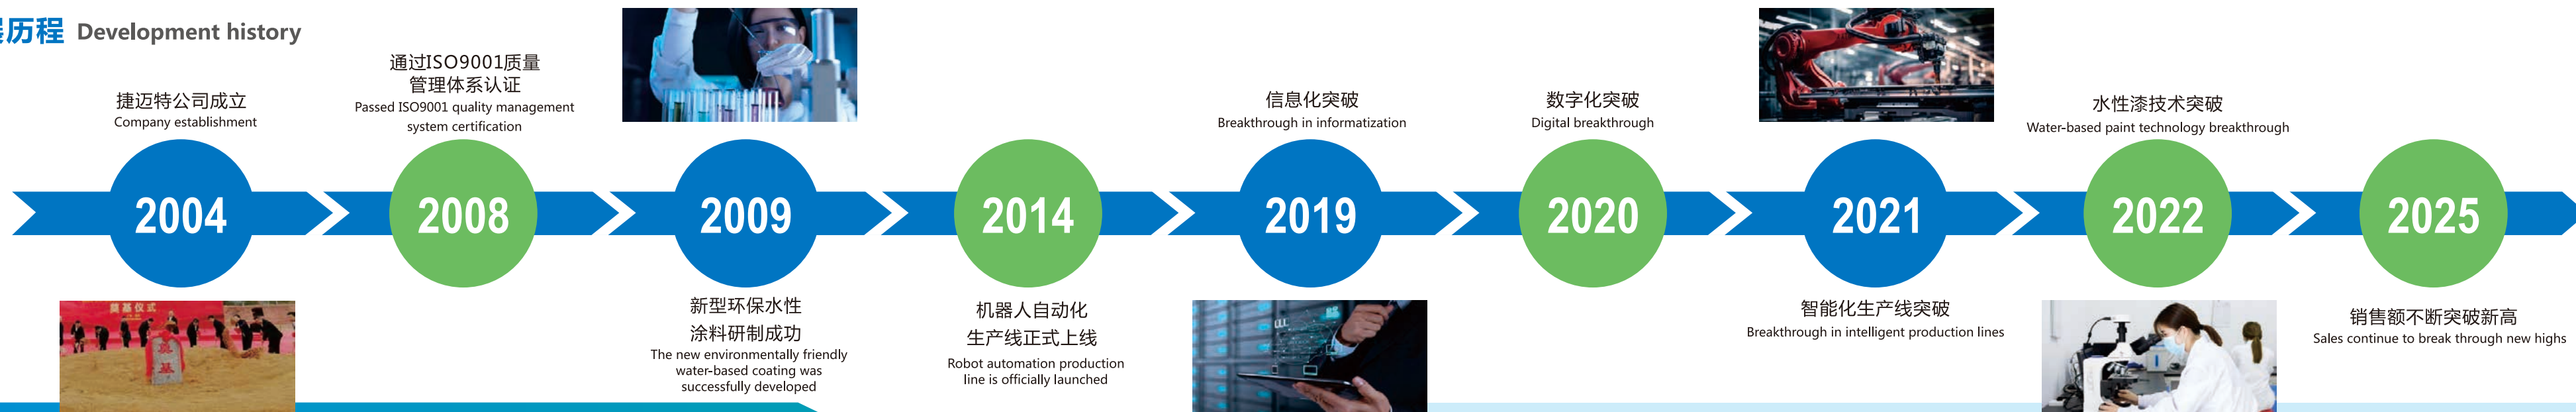

常州捷迈特表面工程技术有限公司
Changzhou Jiemaite Surface Engineering Technology Co., Ltd.

经营范围 Business Scope

- 提供标准达克罗、交美特涂覆生产线，尤其擅长汽车零部件等专用涂覆设备、生产线的设计制造。
- 提供各种金属零部件前处理(磷化、氧化、酸洗)生产线及其设备。
- 提供喷漆、喷塑、阴极电泳生产线以及其配套的废水、废气处理环保设备。
- 提供达克罗、无铬水性锌铝涂料，以及配套前后处理药剂。
- 提供环境友好的水性漆：双组分环氧类、单组分环氧类、单组分丙烯酸类；以及相关工艺技术咨询和解决方案。
- Provide fasteners dacromet and with chromium-free coating production lines; especially good at the design and manufacture of special coating equipment and production lines such as auto parts.
- Provide various metal parts pretreatment (phosphating, oxidation, pickling) production lines and their equipment.
- Provide painting, plastic spraying, cathode electrophoresis production lines and their supporting wastewater and exhaust gas treatment and environmental protection equipment.
- Provide dacromet, chromium-free water-based zinc-aluminum coatings, and supporting pre- and post-treatment agents.
- Provide environmentally friendly water-based paints: two-component epoxy, one-component epoxy, and one-component acrylic; and related process technical consulting and solutions.
